

# CHEMICAL ENGINEERING

Chemical Engineering Thermodynamics	Chemical Process Control	Chemical Process Intensification	Chemical Process Safety	Chemical Reaction Engineering-I
 <a href="#">103104151</a>	 <a href="#">103101142</a>	 <a href="#">103103152</a>	 <a href="#">103107156</a>	 <a href="#">103103153</a>
Colloids and Surfaces	Fluid and Particle Mechanics	Fluidization Engineering	Heat Transfer	Infrared spectroscopy for pollution monitoring
 <a href="#">105106204</a>	 <a href="#">103106158</a>	 <a href="#">103103132</a>	 <a href="#">103105140</a>	 <a href="#">103108139</a>
Introduction to Polymer Physics	Mechanical Operation	Mechanical Unit Operations	Natural Gas Engineering	Phase equilibrium thermodynamics
 <a href="#">103103139</a>	 <a href="#">103107123</a>	 <a href="#">103103155</a>	 <a href="#">103103140</a>	 <a href="#">103105127</a>
Plant Design and Economics	Polymers: concepts, properties, uses and sustainability	Technologies For Clean And Renewable Energy Production	Thermodynamics of Fluid Phase Equilibria	Unit operations of particulate matter
 <a href="#">103105166</a>	 <a href="#">105106205</a>	 <a href="#">103107157</a>	 <a href="#">103104129</a>	 <a href="#">103107127</a>
